Nurse-Family Partnership® is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child’s second birthday. Mothers, babies, families and communities all benefit.

**CONNECTICUT MOMS**

- **24** Median age at intake
- **79%** Unmarried at intake
- **78%** Clients enrolled in Medicaid at intake

**OUTCOMES FOR CONNECTICUT**

- **90%** Babies born at term
- **86%** Mothers initiated breastfeeding
- **91%** Babies received all immunizations by 24 months
- **57%** Of clients 18+ were employed at 24 months

*Aggregate data provided by the NSO. Includes state data from 01/01/2019 to 12/31/2021

*Babies born at term are those who reached 37 weeks gestation
Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

Better Worlds Start with Great Mothers

Nurse-Family Partnership empowers vulnerable first-time moms to transform their lives and create better futures for themselves and their babies.
