Nurse-Family Partnership® is an evidence-based, community health program that helps transform the lives of vulnerable mothers pregnant with their first child. Each mother served is partnered with a registered nurse early in her pregnancy and receives ongoing nurse home visits that continue through her child’s second birthday. State and federal government cost savings average $26,898 per family served or $2.90 per dollar invested, and total benefits to society equal $60,428 per family served, or $6.40 per dollar invested in Nurse-Family Partnership.

Funding: Nurse-Family Partnership is funded by a range of private and public funding sources, including the Maternal, Infant and Early Childhood Home Visiting program (MIECHV), Medicaid, TANF and public welfare funds, Title V Maternal and Child Block Grant, child abuse prevention, juvenile justice and delinquency prevention, substance abuse and mental health, tobacco settlement, state, city, and county general funds, early childhood/school readiness, pay for success/social impact bonds and private philanthropy, in addition to state and local general funds.

Nurse-Family Partnership Agencies: The Nurse-Family Partnership National Service Office contracts with and provides support to states and agencies that deliver the Nurse-Family Partnership program. These agencies are public and nonprofit entities, including state and county public health departments, community-based organizations, federally qualified health centers, managed care organizations, nursing associations and hospitals and health systems.
