Nurse-Family Partnership® is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child’s second birthday. Mothers, babies, families and communities all benefit.

**O R E G O N**

**OREGON MOMS**

- **20** Median age
- **80%** Unmarried
- **98%** Clients Who Used Medicaid while in NFP

**5X $ RETURN**

Every $1 invested in NFP saves $5.70 in future costs for the highest-risk families served.

*Aggregate data provided by NSO, includes cumulative state data for Oregon up to 11/2018; Employment data up to 9/2018.
Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

Better Worlds Start with Great Mothers

Nurse-Family Partnership empowers vulnerable first-time moms to transform their lives and create better futures for themselves and their babies.
