Nurse-Family Partnership® is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child’s second birthday. Mothers, babies, families and communities all benefit.

**ALABAMA MOMS**

- **20** Median age
- **96%** Unmarried
- **99%** Clients who used Medicaid while in NFP

**Race**
- 9% White
- 88% Black or African American
- 1% Declined
- 2% Multi-racial
- 0% Asian or Pacific Islander
- 0% American Indian or Alaska Native

**Ethnicity**
- 97% Non-Hispanic
- 2% Hispanic
- 1% Declined

**OUTCOMES FOR ALABAMA**

*Aggregate data provided by NSO, includes cumulative state data for Alabama up to 11/2018; Employment data up to 9/2018.

- **87%** Babies born full term
- **71%** Mothers initiated breastfeeding
- **95%** Babies received all immunizations by 24 months
- **75%** Of clients 18+ were employed at 24 months

**$ RETURN**

Every $1 invested in NFP saves $5.70 in future costs for the highest-risk families served.
Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

Proven Results

The Nurse-Family Partnership program has been independently reviewed and evaluated, and is ranked as the Gold Standard of home visiting programs. A report from the Center on the Developing Child at Harvard University shows the extent to which very early childhood experiences influence later learning, behavior and health.
