Nurse-Family Partnership® is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child’s second birthday. Mothers, babies, families and communities all benefit.

NEW YORK MOMS

- **21** Median age
- **84%** Unmarried
- **98%** Clients who used Medicaid while in NFP
- **$7,500** Annual household income (median)

Race
- 16% White

*Aggregate data provided by NSO, includes cumulative state data for the state up to 11/2018. Employment data up to 9/2018.
**Nurse-Family Partnership Goals**

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

**There is a magic window during pregnancy... a time when the desire to be a good mother and raise a healthy, happy child creates motivation to overcome incredible obstacles including poverty with the help of a well-trained nurse.**

— David Olds, Ph.D., Nurse-Family Partnership’s Founder

Professor of Pediatrics at University of Colorado
