Nurse-Family Partnership is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child’s second birthday. Mothers, babies, families and communities all benefit.

GEORGIA MOMS

- 22 Median age at intake
- 94% Unmarried at intake
- 85% Clients enrolled in Medicaid at intake
- $9,000-$12,000 Annual median household income at intake

6x $ RETURN
EVERY $1 INVESTED IN NFP SAVES $6.60 IN FUTURE COSTS FOR THE HIGHEST-RISK FAMILIES SERVED

Nurse-Family Partnership Goals
1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

Proven Results
The Nurse-Family Partnership program has been independently reviewed and evaluated, and is ranked as the Gold Standard of home visiting programs. A report from the Center on the Developing Child at Harvard University shows the extent to which very early childhood experiences influence later learning, behavior and health.

THERE IS A MAGIC WINDOW DURING PREGNANCY… A TIME WHEN THE DESIRE TO BE A GOOD MOTHER AND RAISE A HEALTHY, HAPPY CHILD CREATES MOTIVATION TO OVERCOME INCREDIBLY OBSTACLES INCLUDING POVERTY WITH THE HELP OF A WELL-TRAINED NURSE.

— DAVID OLDS, PH.D., NURSE-FAMILY PARTNERSHIP’S FOUNDER
PROFESSOR OF PEDIATRICS AT UNIVERSITY OF COLORADO
