Nurse-Family Partnership® is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child’s second birthday. Mothers, babies, families and communities all benefit.

NEVADA MOMS

- Median age at intake: 23
- Unmarried at intake: 85%
- Clients enrolled in Medicaid at intake: 64%
- Less than or equal to $6,000 Annual median household income at intake

$ RETURN EVERY $1 INVESTED IN NFP SAVES $4.30 IN FUTURE COSTS FOR THE HIGHEST-RISK FAMILIES SERVED¹
Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

Proven Results

The Nurse-Family Partnership program has been independently reviewed and evaluated, and is ranked as the Gold Standard of home visiting programs. A report from the Center on the Developing Child at Harvard University shows the extent to which very early childhood experiences influence later learning, behavior and health.
