Nurse-Family Partnership®
is an evidence-based,
community health program
with over 40 years
of evidence showing
significant improvements
in the health and lives
of first-time moms and their
children living in poverty.

Nurse-Family Partnership works by having specially
trained nurses regularly visit young, first-time moms-to-
be, starting early in the pregnancy, continuing through
the child’s second birthday. Mothers, babies, families
and communities all benefit.

Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

Better Worlds Start with Great Mothers

Nurse-Family Partnership empowers vulnerable first-time moms to transform their lives and create better futures for themselves and their babies.

"There is a magic window during pregnancy... a time when the desire to be a good mother and raise a healthy, happy child creates motivation to overcome incredible obstacles including poverty with the help of a well-trained nurse."
