Nurse-Family Partnership® is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child’s second birthday. Mothers, babies, families and communities all benefit.

**OREGON MOMS**

- **24** Median age at intake
- **79%** Unmarried at intake
- **94%** Clients enrolled in Medicaid at intake

**Race**
- 72% White
- 11% Black or African American

- **55%** Of clients 18+ were employed at 24 months

**6x $ RETURN**

Every $1 invested in NFP saves $6.10 in future costs for the highest-risk families served.

**Oregon**
Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

Better Worlds Start with Great Mothers

Nurse-Family Partnership empowers vulnerable first-time moms to transform their lives and create better futures for themselves and their babies.

There is a magic window during pregnancy... A time when the desire to be a good mother and raise a healthy, happy child creates motivation to overcome incredible obstacles including poverty with the help of a well-trained nurse.

— David Olds, Ph.D., Nurse-Family Partnership’s founder professor of pediatrics at University of Colorado
