Nurse-Family Partnership® is an evidence-based, community health program with over 40 years of evidence showing significant improvements in the health and lives of first-time moms and their children living in poverty.

Nurse-Family Partnership works by having specially trained nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy, continuing through the child’s second birthday. Mothers, babies, families and communities all benefit.

**IDAHO MOMS**

| 21  | Median age at intake |
| 79% | Unmarried at intake  |
| 73% | Clients enrolled in Medicaid at intake |

**$6,000-$9,000**

Annual median household income at intake

**Race**

- 86% White

| 93% | Babies born full term |
| 95% | Mothers initiated breastfeeding |
| 88% | Babies received all immunizations by 24 months |
| 66% | Of clients 18+ were employed at 24 months |

6x

$ RETURN

Every $1 invested in NFP saves $6.40 in future costs for the highest-risk families served.*
Nurse-Family Partnership Goals

1. Improve pregnancy outcomes by helping women engage in good preventive health practices.
2. Improve child health and development by helping parents provide responsible and competent care; and
3. Improve the economic self-sufficiency of the family by helping parents develop a vision for their own future.

Proven Results

The Nurse-Family Partnership program has been independently reviewed and evaluated, and is ranked as the Gold Standard of home visiting programs. A report from the Center on the Developing Child at Harvard University shows the extent to which very early childhood experiences influence later learning, behavior and health.
